- Maximum 20 characters per line (including full stops, spaces, accents, etc.)
- Embroidery can be done on 2 lines
- Maximum width for each lettering: 10 cm
- You may choose from WHITE or BLUE to embroider the name

How to **wash** your **uniform**

 **Q U I C K**[®]
MEDICAL UNIFORM

- For stubborn stains, the Quick Medical Uniform can be washed in the washing machine at up to 90°.
- For deeper sanitisation, it can be washed in bleach without affecting the colour.
- To lengthen your uniform's product life, we recommend machine washing at 40°/60°, set the spin cycle at low rpm speed (400/600) and hang to dry as soon as the washing programme is finished. Once it has dried naturally and rapidly, your scrub is ready to be worn the next morning.

WASH & GO

It's never been easier...
it's **QUICK!**

- Set your washing machine at 40°-60° and the spin cycle at maximum 400-600 rpm.

- When the wash cycle has finished, hang your uniform to dry

- Now, relax and enjoy!

SIZE CHART

To take measurements correctly, we recommended that you wear only underwear and that you stand in front of a full-length mirror. Make sure that the tape measure is placed as horizontally as possible around the body part you want to measure.

Sizes are in centimetres and refer to the measurements of a person's body. These are indicative measurements that satisfy a standard figure and fit.
